Interact-AS™
Communication Products for Seniors

One of Auditory Sciences many products for removing communication barriers.

The only hearing assistance product that allows you to truly *interact.*

Interact-AS runs on your own Computer:

- Microsoft's Windows Vista or newer operating system.
- 1 GB of RAM (2 GB is preferred)
- 1.8 GHz or faster CPU (an Intel i5 CPU is suggested).
- At least 500KB of available disk space (3 GB for the Professional Edition).
- An external microphone.

Or Purchase a Complete System:

- You can order Interact-AS on a pre-configured laptop or tablet PC optimized for your needs.
- This includes everything you need: PC, Microphone, etc.
- Please contact us and we'll be happy to help you select the ideal system for your needs.

At Last, the Wait is Over

In 1883, the editor of the American Annals of the Deaf wrote, "It is not unreasonable to hope that some instrument will yet be contrived that will transcribe ordinary human utterance." After a wait of over a century, what was once a dream is now available product. **With *Interact-AS,* conversations, radio broadcasts and television programs are instantly transcribed.**

Simple to Use

Load *Interact-AS* onto your own laptop, netbook or tablet PC, and you're ready to go. Interact-AS supports **speech, typing** and **handwriting.** Use it at home, in stores, at restaurants. Interact-AS even transcribes religious services, radio broadcasts and television programs. With *Interact-AS* you can communicate anywhere, anytime, and even in multiple languages.

Interact-AS supports speech, typing and handwriting

Instant closed captioning of conversations, television, radio and more

A transcript and voice recording of the entire conversation is shown here

Your Choice of Versions…

- Choose the **Professional Edition** if you want all the features of Interact-AS including the high performance transcription software and the ability to instantly translate languages
- Choose the **Consumer Edition** if you are looking for a scaled down lower priced version of Interact-AS.

Start Interacting Today

Affordable, simple to use, with features to ensure all your communication needs are being met, that's what *Interact-AS* is all about. Purchase either version of Interact-AS and load it onto your own computer, or purchase a complete pre-configured system that's ready-to-go and customized just for you – just turn it on and you are ready to *Interact.* *Interact-AS* **meets the guidelines for Medicare purchases** (HCPCS Codes E2510 and E2511). To learn more about *Interact-AS,* visit www.auditorysciences.com, or send an email to info@auditorysciences.com, or give us a call at 507-645-8924 and we will be happy to help you get Interacting the right way, right away.

Interact-AS™

Professional and Consumer Editions

Two of Auditory Sciences many products for removing communication barriers.

Please Note:

- Per the licensing agreement, the Professional Version can be purchased and used by anyone without limitations.
- However, the Consumer Edition can only be purchased by an individual. It cannot be purchased by a business, agency, school or firm.

Upgrading your System:

- If your computer breaks or you purchase a new one, just let us know. We'll help you move your license to your new system.
- You can upgrade from the Consumer to the Professional Edition at any time. For upgrades, fifty percent of the current price of the Consumer Edition will be deducted from the price of your new Professional version.

Choose the Version that Best Meets your Needs

Interact-AS comes in two editions: Professional and Consumer. If you want to use all of Interact-AS's many features, then choose the Professional Edition; or if you are looking for a scaled down lower-priced version, then choose the Consumer Edition. Both come standard with a noise cancelling microphone plus free upgrades and technical support for the first year of your purchase.

Optional Modules for Removing Language Barriers

Are you planning to travel overseas? Make sure to bring *Interact-AS Professional Edition* along with you. By adding the optional language modules, now you can hold conversations in multiple languages. Whatever you write, type or speak in English is immediately translated and voiced out in Spanish, French, German, Italian, Dutch or many other languages. When someone says something in a foreign language, it's translated and shown to you in English. **Only Interact-AS allows you to communicate with others in over 38 languages.**

Instant Translation of Conversations and Documents

With *Interact-AS's* language modules*,* **anything spoken, typed or written is simultaneously translated and voiced aloud in your selected language.** No being limited to fixed phrases, having to be connected to the internet, or waiting – instant translation right on your own computer.
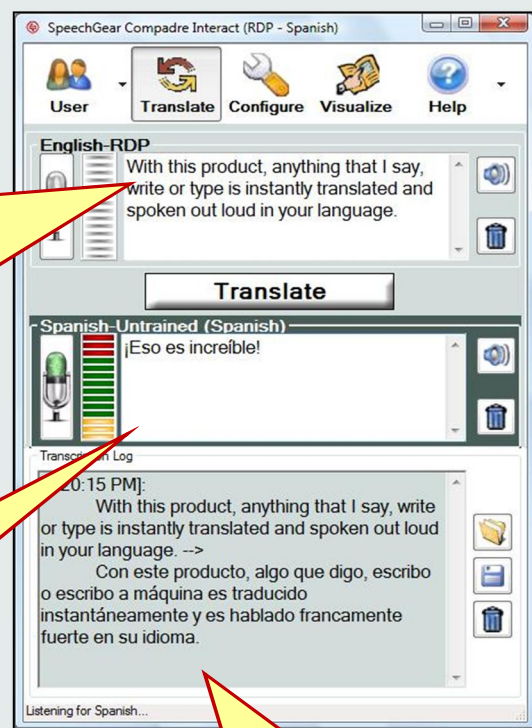

Easy to Use

Affordable, simple to use, that's what *Interact-AS* is all about.

The optional language translation modules run on any computer that already has *Interact-AS Professional Edition* installed. Select as many languages as you want, and add more language modules as needed. Spanish, Italian, Chinese, Arabic, German, and many more, they can all be added to your communication system.

Words you say, type or write are displayed here and are spoken aloud in the selected language

Words of the foreign language are displayed here

A transcript and optional voice recording of the entire conversation is shown here
