Instant Captioning and Translation of your Services

Do you have attendees that are Deaf or Hard of Hearing, or individuals that would attend your services if only they could be spoken in another language such as Spanish, Russian or Arabic? If so, then consider using Streamer™ to share the Good News with others.

Here's How It Works

Interact-Streamer™ is a web-based captioning and translation system designed to spread the Good News of Christ. There are no usage limits or per minute fees - use Streamer as often as you like, anywhere, and anytime. We'll create a

Streamer website account just for you and your church members. And because it's web-based, Streamer runs on pretty much everything -- laptops, MacBooks, iPads, iPhones, Android phones, Chromebooks and more. With Streamer, there are no apps to install, invite codes to publish, or QR codes to generate. All guests do is go to **www.streamer.center** and login using the account we will set up for your church. It's that simple.

Share Bible Study Guides, Church Bulletins, and More

Streamer can be used by everyone in your congregation. With Streamer™ you can share documents, such as the church bulletin, with all your attendees. Just drag-n-drop them into your transcript window and everyone has the information loaded directly onto their personal smartphone or tablet. Share documents during your services, send out daily scriptures or words of encouragement, as well as reminders of upcoming events.

Save the Transcript

A complete transcript of each message can be saved as a text file or Word® document.

Budget Friendly

To fund our Mark 16:15 ministry we do charge $49 per month to use the system, or a one-time fee of $995. Perhaps there is a person within your congregation willing to make a one-time donation to purchase your system?

It's Easy to Get Started

Give it a try for free, right now. You'll see how easy it is to use.

1. Open a Chrome browser and go to **www.streamer.center**.
2. Login using account **Demo** and the password **12345678**.
3. Click on the room called **Demo** and the microphone and start talking.
