

# Interact-Streamer™

## Captioning and Translation of your Services

One of Church Captioning's many Mark 16:15 products for spreading the message of Christ.

Automated  
Captioning and  
Translation of  
your Services.

### Features:

- Easy to use, simply go to [www.streamer.center](http://www.streamer.center) and login.
- Spoken words are instantly transcribed and/or translated using full context and complete punctuation.
- Translations can be spoken aloud in each guest's preferred language.
- Runs on most devices including MacBooks, iPads, iPhones, Android Phones, Chromebooks and laptops.
- Stream directly to individual smartphones, or project the captioning on a front screen.
- Drag-N-Drop document sharing.

### System Requirements:

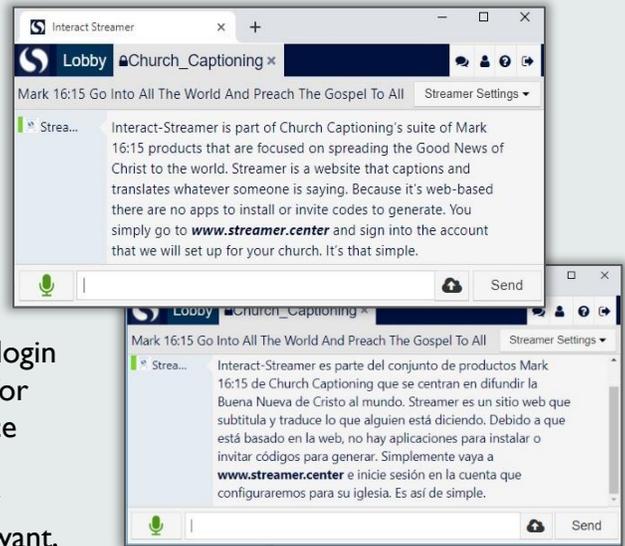

- Caption your service using any device that can run a Chrome browser.
- Guests can view the captioning using any device that uses a browser to connect to the Internet.

### Reach Out to All Members of Your Community...

In the United States, one out of every five households do not speak English within their home. What about your community. Are there individuals that would like to attend a church, but because of their limited English skills do not? By including Church Captioning's translation system in your services and gatherings, you can now you can spread the message of Christ in over 40 languages.

### Here's How It Works

Streamer™ is a web-based captioning and translation system designed to spread the Good News of Christ. With Streamer, there are no apps to install, invite codes to publish, nor QR codes to generate. All guests do is go to [www.streamer.center](http://www.streamer.center) and login using the account we will set up for your church. It's that simple. Once your system is configured, whatever is said is simultaneously captioned, translated, and if you want, spoken aloud in each person's preferred language. This is complete multi-lingual translation of anything being said in most any language. You can simultaneously support as many languages as you want. And because it's web-based, Streamer™ runs on pretty much everything -- laptops, MacBooks, iPads, iPhones, Android phones, Chromebooks and more.

### Supporting People that are Deaf or Hard of Hearing

Your system also captions whatever is being said. This is real-time dynamic captioning that anyone can view. Now everyone, including members that are Deaf or Hard of Hearing, can be part of your church services and gatherings.

### Budget Friendly

With Streamer™ there are no usage limits or per minute fees - use your system to spread the Good News as often as you like, anywhere, and anytime. To fund our Mark 16:15 ministry we do charge \$49 per month to use the system, or a one-time fee of \$995. Perhaps there is a person within your congregation willing to make a one-time donation to purchase your system?

### It's Easy to Get Started

To learn more and to set up a Streamer account for your church, visit [www.churchcaptioning.com](http://www.churchcaptioning.com), or give us a call at 952-381-1234 or send an email to [info@churchcaptioning.com](mailto:info@churchcaptioning.com). And thanks again for partnering with us as together we work to share the Good News.
