The Best New Product for Enhancing Customer Experience

"The Innovative Solution Awards provide industry recognition for companies who provide the best of the best in leading edge, creative solutions. After evaluating the hundreds of applications, our committee selected SpeechGear's Compadre product suite for the Customer Touch Points category, which is focused on technology that maximizes the customer experience."

Joe Finizio, President & CEO, Retail Solutions Providers Association

Become the Preferred Car Rental Agency for Travelers

It's simple, people want to rent cars from a business that speaks their language. Just in the United States, one out of every five households does not speak English within their home. This equates to nearly 50 million people, with 20 million having no knowledge of English at all. With SpeechGear's line of instant translation products, you can become that preferred choice. From instant translation of speech, to receipts printed in the customer's native language, SpeechGear gives you that extra differentiator to separate you from your competition. SpeechGear's products are affordable, effective, and immediately available.

Three Steps to Removing the Language Barrier

At the Customer Counter: Use *Interact* to instantly translate conversations. Simply say a phrase, and it is translated and spoken in the desired foreign language. With SpeechGear's products, you are not limited to a fixed set of phrases - any meaningful sentence is instantly translated. Plus, use *Document* to instantly translate handouts including transaction receipts.

On the Bus: Now your staff can directly communicate with guests in the guest's native language.

When Returning the Vehicle: With SpeechGear's *Interpreter* software, employees can easily assist customers using multiple languages. Further, *Interpreter* runs on your existing handheld computers. No new computers or additional maintenance concerns, just increased functionality for your existing investment.

Configure Your System Today

With SpeechGear, now all of your employees can communicate in multiple languages, adding that differentiating personal touch to your level of customer service. The products do not replace interpreters, but rather let these individuals focus their valuable time on situations where their expertise is truly needed, resulting in more effective and efficient use of their time and an overall cost savings for your operations. In addition to language translation, SpeechGear also has systems enabling you to communicate with individuals who are deaf or hard of hearing. To configure and order your *Compadre* system send an email to info@speechgear.com, or give us a call at 888-664-9123 and ask for the Sales Department, or visit our website at www.speechgear.com. We are looking forward to working with you to configure an instant translation system specifically for your needs.
