The Best New Product for Enhancing Customer Experience

"The Innovative Solution Awards provide industry recognition for companies who provide the best of the best in leading edge, creative solutions. After evaluating the hundreds of applications, our committee selected SpeechGear's Compadre product suite for the Customer Touch Points category, which is focused on technology that maximizes the customer experience."

Joe Finizio, President & CEO, Retail Solutions Providers Association

Become the Preferred Home Health Care Provider

One out of every five households in America speaks a language other than English within their home. This equates to nearly 50 million people, with 20 million having no knowledge of English at all. It's simple, people want to work with a home health care professional that speaks their language. With SpeechGear's line of instant translation products, you can become that preferred provider. SpeechGear's *Compadre* product suite removes the language barrier, letting employees directly communicate with clients, no matter which language they speak. SpeechGear's products are affordable, effective, and immediately available.

Reduce Operational Costs

SpeechGear's products do not completely replace trained interpreters. With SpeechGear, your interpreters can focus their efforts on situations where they are truly needed, resulting in more effective and efficient use of their valuable time. Instead of using expensive translation services or trying to hire multi-lingual employees for all situations, SpeechGear reduces operational costs by providing you with an affordable instant translation product that you own and can use as the situation dictates. This is not a service or a subscription plan. Use SpeechGear's products as often as needed with no additional usage fees being incurred.

Three Steps to Remove the Language Barrier

At the Reception Desk: When a client signs up for your services, make that first impression a great one. Use *Interact* to instantly translate conversations. Simply say a phrase, and it is translated and spoken in the desired foreign language. Use *Document* to provide medical forms written in the patient's language.

In the Home: Remove the language barrier between your staff and clients. SpeechGear's products instantly translate whatever is said plus they keep a transcript of the entire conversation that can be saved for future reference.

Documents and Instructions: Instantly translate documents describing medical procedures and outpatient care.

Configure Your System Today

With SpeechGear, now all of your employees can communicate in multiple languages, adding that differentiating personal touch to your patient's care. SpeechGear also has a line of products enabling you to communicate with individuals who are deaf or hard of hearing. To configure and order your system send an email to info@speechgear.com, or give us a call at 888-664-9123, or visit our website at www.speechgear.com.
