## Instant Translation. Anytime. Anywhere.

SpeechGear's *Compadre* product suite removes the language barrier. With *Compadre* you can instantly communicate with others even when you do not share a common language. Each product within the *Compadre* suite targets a specific mode of communication, letting you instantly translate whatever you say, hear, read, write or type. From enterprise-wide deployments, to personal use, select one or a combination of the products to create your own instant translation solution.

## A Complete Language Translation Solution

The *Compadre* product suite includes five bi-directional modules that can be used independently or merged in any combination to meet your communication needs.

**Compadre:Composer®** is the powerful engine that runs the entire *Compadre* suite. This is the module that generates your translations. With the included *ComposerEditor* feature, you can easily enter new terms and phrases to your translation database, do it once and all your *Compadre* Modules are automatically updated.

**Compadre:Interact®** instantly translates conversations - you speak to the system and while you are speaking it repeats what you are saying in a different language and generates a transcript of your entire conversation. No interpreter, dictionaries, or waiting for your translation. In addition to speech, *Interact* also instantly translates whatever you type and, with a Tablet PC, whatever you write.

**Compadre:Gadget®** runs on your Windows Vista or Windows 7 PC and instantly translates whatever you type. Gadget supports bi-directional translation of 190 language pairs.

**Compadre:Document®** instantly translates and automatically formats PowerPoint presentations and Word documents. If you want a quick overview of the document or if you need a complete and accurate translation ready for distribution and presentation – *Document* is your solution. When it is time to give the presentation, use *DocumentViewer* to simultaneously show the original document along with your translated versions. .

**Compadre: Live Interpreter®** lets you connect to a professional interpreter and do so without advanced scheduling or planning. Now you can hold conversations in over 200 languages anytime and anywhere that you have internet access.

**Compadre:Interpreter®** brings instant translation to your Microsoft Window's Mobile cellular telephone. Download the software, install it on your cellphone, and you're ready to go.

## Plus a Suite of Products for Individuals with Disabilities

**Interact-AS®** removes communication barriers for individuals with disabilities and ensures that your firm is in compliance with the ADA. Examples include supporting the Deaf and Hard-of-Hearing communities by instantly close captioning conversations; for people that have difficulty speaking *Interact-AS* voices aloud whatever they write or type; for those who have difficulty typing or writing they can now use their voice to scribe text. These are a few of the many features included in *Interact-AS* product suite.

## Configure Your System Today

To configure and order your *Compadre* system, send an email to [info@speechgear.com](mailto:info@speechgear.com), or give us a call at 888-664-9123, or visit our website at [www.speechgear.com](http://www.speechgear.com). We are looking forward to working with you to configure an instant translation system specifically for your communication needs.
