

Compadre®

SpeechGear's Compadre® suite of instant language translation solutions.

Reduce your translation services budget and improve your multi-lingual communications

Features:

- Affordable software that you own and can use as often as needed, versus an expensive service to which you need to subscribe.
- Bi-directional instant language translation.
- Whatever you say, type or write is instantly transcribed, translated and spoken in the desired foreign language.
- Automatically keeps a log of conversations that you can save as a Word file – saves you time in documenting meetings with parents and generating reports.
- Use your existing computers – no need to purchase new systems.

Languages:

- Spanish
- German
- Italian
- Portuguese
- Mandarin Chinese
- French
- Arabic
- And many more...

Removing Language Barriers in Education

It is a straightforward statistic of which educators are very familiar - one out of every five households in America speaks a language other than English within their home. Not only is the number of students and families with limited English skills increasing, but so is the number of languages being spoken. The result is an ever growing need for educators to be able to communicate in multiple languages. To meet this challenge with an affordable and effective solution, SpeechGear has worked in partnership with the U.S. Government to develop a complete suite of instant translation products that are now available for educators.

Reducing Costs, Improving Performance

The question is, "with constrained budgets, how can we afford to do this?" Subscribing to translation services or hiring additional full-time interpreters is expensive and beyond the means of many budgets. SpeechGear's products help students learn a second language, plus they allow everyone on your staff to communicate in multiple languages, all while reducing the cost of your translation services – a win, win, win opportunity.

Communicating with Parents and Legal Guardians

U.S. Department of Education studies show that students with parents who are involved in their schooling have fewer behavioral problems and better academic performance than students whose parents are not involved. SpeechGear's instant translation products remove potential language barriers, enabling direct and instant communication with non-English speaking parents.

Communicating with Students

Students with limited English skills often have a difficult time understanding concepts and assignments and may struggle when they need to communicate with individuals who only speak English. This language barrier can cause the student to fall behind their classmates, resulting in frustration, behavioral problems and low academic performance. SpeechGear's instant translation products remove this language barrier and also provide an ideal way for these students to improve their English skills.

Four Ways to Remove Language Barriers and Reduce Costs

-  **Administration Offices:** Use *Interact* to instantly translate conversations. Simply say a phrase, and it is transcribed, translated and spoken in the desired foreign language. Plus use *Document* to instantly translate letters, forms, notes and/or presentations.
-  **In the Classroom and Throughout the School:** SpeechGear's *Interact* and *Document* products enable teachers and other staff members to directly communicate with students, both verbally and in messages. These products also enhance the learning environment for students who do not have sufficient English skills, as well as helping English speaking students learn a new foreign language.
-  **In Meetings:** If desired, you can have *Interact* automatically generate a complete transcript of what people say. Use this to document conversations, such as those that occur during an IEP meeting.
-  **At Home:** *Interact* and *Document* allow students and their entire family to learn the vocabulary they are currently using, versus other language learning programs where you memorize phrases in a set order. This immediate application of needed vocabulary to situational needs enables these individuals to quickly improve their English skills.

Configure Your System Today

SpeechGear's products are affordable, effective, and immediately available. The products do not replace interpreters, but rather let these individuals focus their valuable time on situations where their expertise is truly needed, resulting in more effective and efficient use of their time and an overall cost savings for the school. SpeechGear also has a line of products enabling you to communicate with individuals who are Deaf or Hard-of-Hearing. To configure and order your *Compadre* system, give us a call at 888-664-9123 or send an email to info@speechgear.com or visit our website at www.speechgear.com.

Compadre™

SpeechGear's Compadre™ suite of instant language translation solutions.

Instant translation of whatever you say, hear, read, write or type.

Features:

- Bi-directional instant language translation of over 35 languages.
- Translate what you say and hear using *Interact*.
- Translate what you read, write and type using *Document*.
- Translate what you text using *Message*.
- Customize your *Compadre* systems by using *ComposerEditor* to add new vocabulary.

Languages:

- Spanish
- German
- Italian
- Portuguese
- Dutch
- Chinese
- French
- Arabic
- And many more...

Instant Translation. Anytime. Anywhere.

SpeechGear's *Compadre* product suite removes the language barrier. With *Compadre* you can instantly communicate with others even when you do not share a common language. Each product within the *Compadre* suite targets a specific mode of communication, letting you instantly translate whatever you say, hear, read, write or type. From enterprise-wide deployments, to personal use, select one or a combination of the products to create your own instant translation solution.

A Complete Language Translation Solution

The *Compadre* product suite includes five bi-directional modules that can be used independently or merged in any combination to meet your communication needs.

Compadre:Composer® is the powerful engine that runs the entire *Compadre* suite. This is the module that generates your translations. With the included *ComposerEditor* feature, you can easily enter new terms and phrases to your translation database, do it once and all your *Compadre* Modules are automatically updated.

Compadre:Interact® instantly translates conversations - you speak to the system and while you are speaking it repeats what you are saying in a different language and generates a transcript of your entire conversation. No interpreter, dictionaries, or waiting for your translation. In addition to speech, *Interact* also instantly translates whatever you type and, with a Tablet PC, whatever you write.

Compadre:Gadget® runs on your Windows Vista or Windows 7 PC and instantly translates whatever you type. Gadget supports bi-directional translation of 190 language pairs.

Compadre:Document® instantly translates and automatically formats PowerPoint presentations and Word documents. If you want a quick overview of the document or if you need a complete and accurate translation ready for distribution and presentation – *Document* is your solution. When it is time to give the presentation, use *DocumentViewer* to simultaneously show the original document along with your translated versions. .

Compadre: Live Interpreter® lets you connect to a professional interpreter and do so without advanced scheduling or planning. Now you can hold conversations in over 200 languages anytime and anywhere that you have internet access.

Compadre:Interpreter® brings instant translation to your Microsoft Window's Mobile cellular telephone. Download the software, install it on your cellphone, and you're ready to go.

Plus a Suite of Products for Individuals with Disabilities

Interact-AS® removes communication barriers for individuals with disabilities and ensures that your firm is in compliance with the ADA. Examples include supporting the Deaf and Hard-of-Hearing communities by instantly close captioning conversations; for people that have difficulty speaking *Interact-AS* voices aloud whatever they write or type; for those who have difficulty typing or writing they can now use their voice to scribe text. These are a few of the many features included in *Interact-AS* product suite.

Configure Your System Today

To configure and order your *Compadre* system, send an email to info@speechgear.com, or give us a call at 888-664-9123, or visit our website at www.speechgear.com. We are looking forward to working with you to configure an instant translation system specifically for your communication needs.

Composer[®]

Part of SpeechGear's *Compadre*[™] suite of instant language translation solutions

Language is dynamic with new words being continually added to languages. With Composer, you can easily keep your translations up to date by adding your own vocabulary and sharing this with all of your Compadre[®] systems.

Features:

- Form-based editing tools
- Multiple translations and usage samples per word
- Acronym and term expansion
- Local and remote loading and saving
- Advanced import options to ensure data integrity
- Search/Replace tools.
- Dynamic "find" as you type
- Author filtering
- Favorites lists support
- Multiple editing windows

System Requirements:

Composer runs on PCs that meet the following minimum standards:

- Microsoft's Windows XP or newer operating system.
- 1 GB or more of RAM
- 1.8 GHz or faster CPU (an Intel i5 processor is recommended).
- At least 2 GB available disk space

1310 Bollenbacher Drive
Northfield, MN 55057
t: 888-664-9123
f: 866-356-6644
info@speechgear.com
www.speechgear.com

A Fully Integrated Translation Suite

You've heard about the unprecedented features that the *Compadre*[™] suite offers. No other product line provides real-time translation of text contained in pictures, PowerPoint presentations, Word files, text messages, handwriting and spoken language. At the center of this entire suite is the *Composer* translation engine. *Composer* is a single translation engine that is shared by all of the *Compadre* products. Having this shared translation engine ensures that you have the same reliable performance across all of your *Compadre* modules.

Another key advantage in using *Composer* is that it provides a single location for updating your system's vocabulary. Language is dynamic—in today's world new terms and new meanings are continually being added to each person's vocabulary. *Composer* allows you to keep up with these changes by providing one common tool to update your translation engine as your vocabulary grows. Perhaps you are introducing a new product that your sales force needs to support - or maybe new items to your restaurant menu – or you need to add the name of a new client. With

Composer it's not a problem. Included with the translation engine is the *ComposerEditor* interface. This lets you add new vocabulary, including for example acronyms that are used in your business. Simply type the word or phrase, add the appropriate definitions and translations, and you're done. When you add it to *Composer*, all of your *Compadre* modules are automatically updated.

Sometimes you may want to make the changes directly within your *Compadre* module instead of *Composer*. For example, perhaps you are using *Interact* and realize that you want to add a new term. Again, with *Composer*, this is not a problem. You can import entries that are made directly on any of your *Compadre* modules directly into your *Composer* engine where they then will be shared with all your users.

Composer gives you the flexibility to tailor your translation vocabulary to fit your needs. One location, easy to use, cost efficient, and accurate results, it's all part of SpeechGear's *Compadre* product line.

Start Composing Today

Composer is included with the purchase of any of SpeechGear's PC-based products. For SpeechGear's non-PC products, such as *Interact*, a separate copy of *Composer* can be purchased at minimal cost. To learn more about *Composer* and SpeechGear's entire line of instant translation products, send an email to info@speechgear.com, or give us a call at 888-664-9123 and ask for the Sales Department, or visit our website at www.speechgear.com. We are looking forward to working with you to configure an instant translation system specifically for your needs.

Interact™

Part of SpeechGear's Compadre™ suite of instant language translation solutions

Reduce

Your translation services budget and

Improve

Your multi-lingual communications

Features:

- Instant bi-directional translation of whatever you say, write or type.
- Automatically generates a transcript of your conversations.
- Full-Duplex Operation: Interact listens to what you're currently saying while at the same time speaking the translation of your previous sentence.
- Visualize feature allows you to enhance communications by displaying pictures, drawing on a sketch pad, showing videos and much more.
- Instant translation provides an ideal tool for ESL students to improve their English skills.
- Plus many additional features...

System Requirements:

Interact runs on PCs that meet the following minimum standards:

- Microsoft's Windows XP or newer operating system.
- 1 GB or more of RAM (at least 2 GB is preferred)
- 1.8 GHz or faster CPU (an Intel i5 processor is recommended).
- At least 2 GB available disk space.
- An external microphone.

www.speechgear.com

Instant Translation of Conversations

With *Interact*, language is no longer a barrier. Now you can directly communicate with students and their parents or legal guardians directly in their native language. Whatever you say or hear is instantly translated. No dictionaries, no memorizing of pre-recorded phrases, no expensive translation services, just real-time speech-to-speech translation of conversations.

A Key to Student Success

U.S. Department of Education studies have shown that students with parents who are involved in their school have fewer behavioral problems and better academic performance than students whose parents are not involved. Unfortunately, the amount of involvement of parents who do not speak English is nearly one-half of that of parents who do speak English. As a parent, it's hard to participate when you can't communicate. Interact removes this language barrier, enabling direct and instant communication with non-English speaking parents.

In the Classroom, Media Center, Cafeteria, and more...

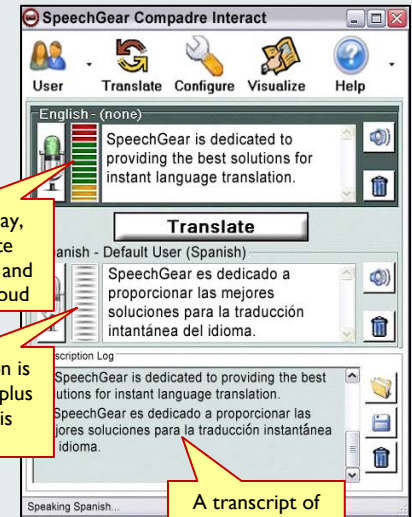

English Language Learner (ELL) students sometimes have difficulty understanding concepts and assignments, and may struggle when they need to communicate with individuals who only speak English. This language barrier can cause the student to fall behind their classmates, resulting in frustration, behavioral problems and low academic performance. *Interact* removes the language barrier and also provides an ideal way for the English Language Learner student to improve their English skills. Interact provides instant translations of vocabulary that the student is currently using, versus other language learning programs where you memorize phrases in a set and rigid order. This immediate application of vocabulary to situational needs enables students to quickly improve their English skills.

A Picture is worth a Thousand Words

Often communication is more than simply speaking. Because of this, *Interact* includes a *Visualize* feature that allows you to enhance your communications by using images such as maps and calendars; pictures such as people and items of interest; translations of worksheets and assignments, and/or videos demonstrating how a task should be performed. With Visualize, you can go beyond simply speaking to truly communicating.

Start Interacting Today

To learn more about SpeechGear's entire line of instant translation products including products for Deaf or Hard-of-Hearing students, send an email to info@speechgear.com, or give us a call at 888-664-9123 and ask for the Sales Department, or visit our website at www.speechgear.com. We are looking forward to partnering with you to configure a system specifically for your needs.

Words you say, type or write show up here and are spoken aloud

The translation is spoken aloud plus shown in this window

A transcript of the entire conversation is shown here

Gadget

Part of SpeechGear's *Compadre*® suite of instant language translation solutions

Bi-directional
instant translation
on your desktop

Features:

- Instant bi-directional translation in nearly 200 language pairs.
- Type your phrase, select your language pair, and click translate.
- Cut and paste your translation into other documents.
- Your choice of interfaces, large or small.
- The interface is automatically localized to the language you have set for your computer.

System Requirements:

Compadre:Gadget runs on all PCs that meet the following requirements:

- Running Microsoft's Vista or Windows 7 Operating System software
- And that have access to the internet.

1310 Bollenbacher Drive
Northfield, MN 55057
t: 888-664-9123
f: 866-356-6644

www.speechgear.com

Instant Translation of Nearly 200 Language Pairs

Want to translate a phrase, a short sentence, or just see the translation of a word or two? Then *Compadre:Gadget*® is your answer. With Gadget, you can instantly translate phrases to and from 20 different languages, resulting in nearly 200 language pairs. Choose English to Korean; or Thai to Danish; or Swedish to Arabic – they're all part of your Gadget module. Further, *Compadre:Gadget*® is automatically localized to your language – whatever language you have set for your computer is the language that *Compadre:Gadget*® will use for its interface.

Your Choice of Languages

| | |
|---------------------|--------------------|
| Arabic | Chinese Simplified |
| Chinese Traditional | Czech |
| Danish | Dutch |
| English | French |
| German | Greek |
| Hebrew | Italian |
| Japanese | Korean |
| Polish | Portuguese |
| Russian | Spanish |
| Swedish | Thai |

Your Desktop Translator

Compadre:Gadget® resides directly on the desktop of computers that are running Microsoft's Windows Vista or Windows 7 operating system software. When you install the module, it becomes part of your gadget toolbar. Just write or type in your phrase, select the language(s) you want, and click on the translate button - that's all it takes and you'll instantly see your translation.

Your Choice of Display Size

Your module includes two interface options: a small size that leaves your desktop free for other applications; and a larger size that allows you to enter longer sentences and phrases. Take your pick - all it takes is a click to switch between the two sizes.

Cut and Paste

Unlike other PC gadgets, *Compadre:Gadget*® supports cut and paste operations. That way it's easy to enter phrases to be translated, and to use the translations in your other applications such as Microsoft Office.

Get Translating Today

Compadre:Gadget is part of SpeechGear's *Compadre*™ instant translation suite. With *Compadre* your conversations are instantly translated and spoken aloud while you are speaking – no delays or waiting; your documents are translated in seconds with the formatting automatically preserved – no cutting or pasting; your text messages are instantly translated and voiced aloud – you both see and hear the translation. Plus you can easily add your own terms and vocabulary to your translation system. It's all part of the complete *Compadre* suite.

To learn more about the entire *Compadre*™ suite, as well as our line of products for the Deaf and Hard-of-Hearing communities, give us a call at 888-664-9123 and ask or the Sales Department, or send an email to info@speechgear.com, or visit our website at www.speechgear.com. We are looking forward to partnering with you to configure an instant translation system specifically for your needs.

Document[®]

Part of SpeechGear's *Compadre[®]* suite of instant language translation solutions

Instantly translate documents while automatically retaining the original formatting

Features:

- Automatically retains the formatting of the original document including picture placement, font types, and layout.
- Automatically scales font sizes so the translated version fits in the same space as the original.
- No need to cut and paste. *Document's* features are directly included in your Microsoft Word[®] and PowerPoint[®] apps.
- Use the included *ComposerEditor* feature to add your own vocabulary to your system.
- Use the included *DocumentViewer* feature to display the original document along with translated versions all on a single projector.
- Plus much more...

System Requirements:

Document runs on PCs that meet the following minimum standards:

- Microsoft's Windows XP or newer operating system.
- 1 GB or more of RAM
- 1.8 GHz or faster CPU (a Dual Core CPU is recommended).
- At least 2 GB available disk space.

www.speechgear.com

Instantly Translate Documents

Need to write a note to a parent or legal guardian who does not read English? Or perhaps an English-as-a-Second-Language (ESL) student is having difficulty reading a handout and understanding a homework assignment. You need to create a translation, but doing so is expensive and time consuming. You can continue to use English and hope the message is getting correctly communicated, but you wish there was a better solution. To solve these and many similar situations, SpeechGear has included *Document* as one of the instant translation modules available in its *Compadre[®]* product suite.

Affordable, Easy-to-Use, and Accurate

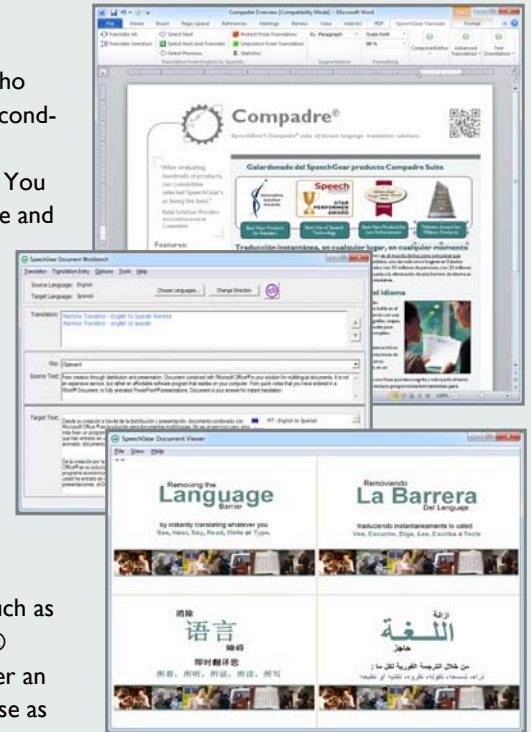

Document instantly translates Microsoft Office files such as Word[®] files, PowerPoint[®] presentations and Excel[®] spreadsheets. It is not an expensive service, but rather an affordable software program that you own and can use as often as desired. When you purchase *Document*, the translation features are directly included in your existing Microsoft Office programs. New features are added to your Word, PowerPoint and Excel programs that allow you to instantly translate the entire document, or just selected portions. Unlike other translation programs, with *Document* there's no need to cut and paste text into a separate translation program, then translate the text, and then paste the translation back into the original document. Further, as one of SpeechGear's many patents *Document* automatically retains the formatting of your original document. If there's a picture in the original, it will also be there in the translation. If the original document has **bold** and underlined text written in **red**, the translation will have this same formatting. There are numerous additional features that set *Document* apart from other products. For example, *Document* provides tools for automatically defining and expanding acronyms that appear within a line of text, and scaling fonts so that a one-page document remains a one-page document when it is translated.

In the Classroom

Compadre:Document does more than just provide you with quick and accurate translations. This is especially true for PowerPoint presentations. The included *DocumentViewer* program allows you to simultaneously display the original file along with your translated versions. There is no need to use multiple projectors to show the original and translated versions of your presentation. In addition to helping ESL students understand what is being said, this is a great way for all students to learn a second language.

Configure Your System Today

To learn more about *Document*, send an email to info@speechgear.com, or give us a call at 888-664-9123 and ask for the Sales Department, or visit our website at www.speechgear.com. We are looking forward to working with you to configure an instant translation system specifically for your needs.

Interpreter™

Part of SpeechGear's Compadre™ suite of instant language translation solutions

Instant spoken translation on your PDA and Smartphone

Features:

- Runs directly on your PDA or smartphone, no need to purchase and lug around a separate device.
- Speak, type, write or select a phrase using the touchscreen, and with *Interpreter* you will both see and hear the translation spoken in the second language.
- Complete multi-lingual and bi-directional translation -- *Interpreter's* more than a one-language, one-direction system.
- *Interpreter's* PhraseBuilder™ feature allows you to say exactly what you want – use it to translate over 100,000 words and phrases.
- Add your own vocabulary, phrases and categories, and share and sync with other *Interpreter* users.
- Create Favorites Lists of phrases that you frequently use.
- *Interpreter's* selection history let's you easily recall recently used phrases.
- Compatible with Microsoft's Windows Mobile Classic or Professional operating system.

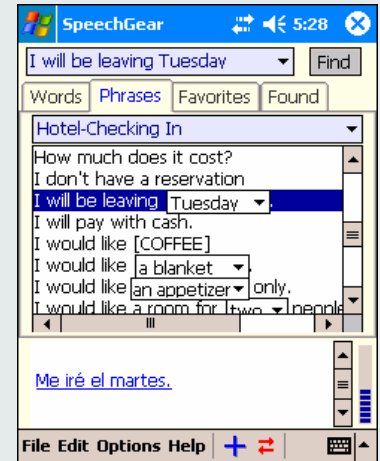

1310 Bollenbacher Drive
Northfield, MN 55057
t: 888-664-9123
f: 866-356-6644
info@speechgear.com
www.speechgear.com

Instant Spoken Translation of Your Phrases

Simply speak, type, write or use your smartphone's touchscreen to select the words or phrases you want to translate, and *Interpreter* shows you the translations plus speaks them out loud. It's that simple, instant spoken translation.

Easy to Use

Other systems require you to navigate through multiple menus and scroll through long lists to try to find the phrase you want. *Interpreter* makes it easy. *Interpreter's* dictionary and phrases are all part of the same interface. Plus, you can easily create your own Favorites Lists for quick recall of phrases that you frequently use. Want more? *Interpreter* remembers the most recent 20 phrases that you've translated, allowing easy reuse. Even more? Use the powerful *Find* features to locate phrases that you want to translate. It all adds up to a powerful, flexible, yet easy-to-use system.

Say What You Want to Say

With *Interpreter*, you will no longer be frustrated by being forced to only use a fixed set of phrases that are hard to locate and difficult to remember. Instead, *Interpreter's* PhraseBuilder™ technology lets you say exactly what you want to say. With a single click, *I want to buy ...* becomes *I want to buy four tickets* or *I want to buy a dozen roses*. You can also combine words from *Interpreter's* dictionary with your phrases, for example, entering an ingredient to the phrase, *I am allergic to ____*. Further, with *Interpreter* you can add your own new words, phrases and categories. You can also choose whether to use a male or female voice for the translation, or to use audio recorded by a native speaker or have *Interpreter* automatically generate the speech. The flexibility is designed into *Interpreter* so it adapts to how you want to communicate, instead of the other way around.

Accurate and Precise Translations

Other translation systems give you one translation for one phrase and you're left to guess as to the translated meaning. Does the word "right" mean "correct" or "direction" or one of many other all valid meanings? With *Interpreter* there is no guessing. *Interpreter* supports multiple translations per word and per phrase and provides usage examples so you can select the best translation to match your intended meaning.

Package Options

Interpreter includes words and phrases for general conversation (49 categories). Additional packages, such as emergency medical situations (24 categories) and military specific applications (17 categories), are available. Combine your system with *Composer*, and you now have the ability to easily share your customized vocabulary with others, ensuring all users benefit from the customized terms that you enter into your system.

Try it today !!!

Visit www.speechgear.com to download your copy of *Interpreter*.

Interact-AS™

Professional Edition for Educators

One of Auditory Sciences many products for removing communication barriers.

The only product that allows students to truly Interact

Features:

- Supports written, typed and spoken input.
- Spoken words are instantly transcribed and displayed. Much faster than CART services.
- The transcript includes an optional synchronized audio recording. Students can easily find and replay a recording of what the teacher was saying when that portion of the transcript was generated.
- Written or typed words are instantly spoken aloud so a non-verbal student can participate in classroom discussions.
- Use the Visualize feature to sketch ideas or make notations on pictures.
- Optional language modules instantly translate conversations enabling rapid language learning.

System Requirements:

Purchase a pre-configured system or load Interact-AS onto your own PC that has the following capabilities.

- Microsoft's Windows XP or newer operating system.
- 2 GB or more of RAM.
- 1.8 GHz or faster CPU (an Intel i5 or faster CPU is strongly recommended).
- At least 3 GB available disk space.
- An external microphone such as a wireless FM system.

At Last, the Wait is Over

In 1883, the editor of the American Annals of the Deaf wrote, "It is not unreasonable to hope that some instrument will yet be contrived that will transcribe ordinary human utterance." After a wait of over a century, what was once a dream is now available to educators throughout the world.

Multiple Communication Barriers

Interact-AS Professional Edition is being used by educators to remove multiple communication barriers in their schools:

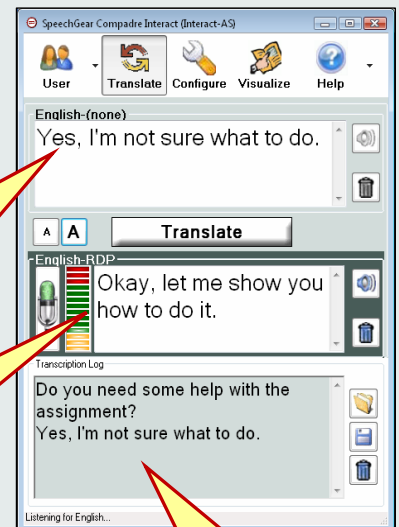

- Students who are **Deaf** are directly communicating with people who do not know sign language;
- Students that are **Hard-of-Hearing** are using Interact-AS's instant closed-captioning (less than 1 second delay) and synchronized voice recording features to improve their cognition rate of classroom conversations;
- Students that have **difficulty writing or typing** are using their voice to type text;
- Students that have **difficulty speaking** are using Interact-AS to voice aloud whatever they write or type using a voice of appropriate accent, gender and cadence;
- Students that have **difficulty reading** are using Interact-AS to have text read aloud to them;
- With the optional Language Modules, **Interact-AS is removing language barriers** by instantly translating conversations to and from over 30 foreign languages;
- Plus, **EEL/ESL** students are using Interact-AS to rapidly learn and start using English in their conversations.

Use speech, typing or handwriting

The most recent sentence is displayed here, plus words you type or write are spoken aloud

Speech, typing or handwriting from others is formatted and instantly displayed

A transcript and optional voice recording of the entire conversation can be saved for future reference

Simple to Use...

Interact-AS supports **speech, typing and handwriting**, resulting in a portable AND mobile system. Students are using *Interact-AS* wherever they go: in the classroom, after school programs, at home, at the shopping mall – instant communication anywhere, anytime with anyone and even in multiple languages.

... With Advanced Features

You're perhaps familiar with the saying, "a picture is worth a thousand words."

Interact-AS Professional Edition puts this into practice. The *Visualize* tab shows pictures or video clips that add to your communications – perhaps a homework assignment, a document, or a website. Pull up a sketch pad where you can draw and discuss ideas. *Visualize* is just one of Interact's many features. Others include:

- Save a transcript of your conversation for future reference,
- Add a camera to your system to view a live video image of the person who is speaking,
- And many more ...

Start Interacting Today

Affordable, simple to use, with features to ensure all the student's communication needs are being met, that's what *Interact-AS* is all about. *Interact-AS Professional Edition* is **508 compliant** plus it **meets the guidelines for Medicare purchases of Speech Generating Devices**. To learn more, send an email to info@auditorysciences.com, or give us a call at [507-645-8924](tel:507-645-8924), or visit www.auditorysciences.com and we will be glad to help you get Interacting the right way, right away.
