

Compadre®

SpeechGear's Compadre® suite of instant language translation solutions.

In my view as a trained linguist, this is a quantum leap in technology. This product is the crown jewel of machine translation.

Memorandum of Record
LTC Carol, USMC

Features:

- Bi-directional instant language translation.
- Whatever you say, type or write is instantly translated and spoken in the desired foreign language.
- Add your own vocabulary such as acronyms and proper nouns.
- A complete hands and eyes free interface
- Use your existing computers – no need to purchase new systems.
- Generates a complete transcript and synchronized voice recording of conversations.

Languages:

- American, British, Australian and/or Indian dialects of English paired with numerous other languages including Spanish, French, Arabic, German, Italian, Portuguese, Dutch, and many more...

Best Use of Speech
Technology

Best New Product for
Law Enforcement

Tibbetts Award for
Military Products

Instant Translation, Anywhere, Anytime

Simply put, military personnel stationed overseas need the ability to communicate with the local populace. Without such a capability, operational effectiveness is decreased, valuable information may not be acquired, and lives are put at risk. As such, a complete solution for instant translation systems is needed. These translation systems must be bi-directional – that is provide translations to and from the foreign language; they must support both written and verbal communications; they need to be adaptable including the ability for warfighters in the field to add new vocabulary to the systems; they need to be portable so the capability can be brought directly to the situation; they need to include a hands and eyes-free interface so warfighters can maintain situational awareness, and they must reliably produce accurate results. The answer to all of the above is SpeechGear's award winning suite of instant translation products.

Three Steps to Removing the Language Barrier

Conversations: Use *Interact* to instantly translate conversations. Simply say a phrase and it is translated and spoken in the desired foreign language. *Interact* also translates whatever you type, plus with a touchscreen, whatever you write. With *Interact*, you can use pictures, maps, calendars, video clips and many additional media files to augment your communications. *Interact* also includes a complete hands and eyes-free operational mode.

Documents: Use *Document* to instantly translate Microsoft Office® files such as Word documents and Excel spreadsheets. With *Document*, the translation automatically retains the same formatting as the original. There's no need to cut-and-paste as with other document translation programs. *Document* even provides tools for scaling fonts so that a one-page document remains a one-page document when it is translated.

Presentations and Briefings: *Document* also instantly translates PowerPoint® presentations while again, automatically retaining the formatting of your original document. If there's a picture in the original, it will also be there in the translation. If the original document has bold and underlined text written in red, the translation will have this same formatting. Once you're ready to show your presentation, use DocumentViewer to simultaneously display the original file along with your translated versions all on a single projector.

Configure Your System Today

Do you use a lot of acronyms, or perhaps proper nouns such as names of individuals, roads or regions? All of SpeechGear's modules include *ComposerEditor*, which lets you add your own terms and vocabulary to the translation engines. It's simple, translation systems should adapt to how you want to communicate instead of you adapting your communications to whatever the system supports. SpeechGear's products are affordable, effective and immediately available. SpeechGear also has a line of products enabling you to communicate with individuals who are deaf or hard of hearing. To configure and order your *Compadre* system, send an email to info@speechgear.com or give us a call at 888-664-9123.

Compadre™

SpeechGear's Compadre™ suite of instant language translation solutions.

Instant translation of whatever you say, hear, read, write or type.

Features:

- Bi-directional instant language translation of over 35 languages.
- Translate what you say and hear using *Interact*.
- Translate what you read, write and type using *Document*.
- Translate what you text using *Message*.
- Customize your *Compadre* systems by using *ComposerEditor* to add new vocabulary.

Languages:

- Spanish
- German
- Italian
- Portuguese
- Dutch
- Chinese
- French
- Arabic
- And many more...

Instant Translation. Anytime. Anywhere.

SpeechGear's *Compadre* product suite removes the language barrier. With *Compadre* you can instantly communicate with others even when you do not share a common language. Each product within the *Compadre* suite targets a specific mode of communication, letting you instantly translate whatever you say, hear, read, write or type. From enterprise-wide deployments, to personal use, select one or a combination of the products to create your own instant translation solution.

A Complete Language Translation Solution

The *Compadre* product suite includes five bi-directional modules that can be used independently or merged in any combination to meet your communication needs.

Compadre:Composer® is the powerful engine that runs the entire *Compadre* suite. This is the module that generates your translations. With the included *ComposerEditor* feature, you can easily enter new terms and phrases to your translation database, do it once and all your *Compadre* Modules are automatically updated.

Compadre:Interact® instantly translates conversations - you speak to the system and while you are speaking it repeats what you are saying in a different language and generates a transcript of your entire conversation. No interpreter, dictionaries, or waiting for your translation. In addition to speech, *Interact* also instantly translates whatever you type and, with a Tablet PC, whatever you write.

Compadre:Gadget® runs on your Windows Vista or Windows 7 PC and instantly translates whatever you type. Gadget supports bi-directional translation of 190 language pairs.

Compadre:Document® instantly translates and automatically formats PowerPoint presentations and Word documents. If you want a quick overview of the document or if you need a complete and accurate translation ready for distribution and presentation – *Document* is your solution. When it is time to give the presentation, use *DocumentViewer* to simultaneously show the original document along with your translated versions. .

Compadre: Live Interpreter® lets you connect to a professional interpreter and do so without advanced scheduling or planning. Now you can hold conversations in over 200 languages anytime and anywhere that you have internet access.

Compadre:Interpreter® brings instant translation to your Microsoft Window's Mobile cellular telephone. Download the software, install it on your cellphone, and you're ready to go.

Plus a Suite of Products for Individuals with Disabilities

Interact-AS® removes communication barriers for individuals with disabilities and ensures that your firm is in compliance with the ADA. Examples include supporting the Deaf and Hard-of-Hearing communities by instantly close captioning conversations; for people that have difficulty speaking *Interact-AS* voices aloud whatever they write or type; for those who have difficulty typing or writing they can now use their voice to scribe text. These are a few of the many features included in *Interact-AS* product suite.

Configure Your System Today

To configure and order your *Compadre* system, send an email to info@speechgear.com, or give us a call at 888-664-9123, or visit our website at www.speechgear.com. We are looking forward to working with you to configure an instant translation system specifically for your communication needs.

Composer[®]

Part of SpeechGear's *Compadre*[™] suite of instant language translation solutions

Language is dynamic with new words being continually added to languages. With Composer, you can easily keep your translations up to date by adding your own vocabulary and sharing this with all of your Compadre[®] systems.

Features:

- Form-based editing tools
- Multiple translations and usage samples per word
- Acronym and term expansion
- Local and remote loading and saving
- Advanced import options to ensure data integrity
- Search/Replace tools.
- Dynamic "find" as you type
- Author filtering
- Favorites lists support
- Multiple editing windows

System Requirements:

Composer runs on PCs that meet the following minimum standards:

- Microsoft's Windows XP or newer operating system.
- 1 GB or more of RAM
- 1.8 GHz or faster CPU (an Intel i5 processor is recommended).
- At least 2 GB available disk space

1310 Bollenbacher Drive
Northfield, MN 55057
t: 888-664-9123
f: 866-356-6644
info@speechgear.com
www.speechgear.com

A Fully Integrated Translation Suite

You've heard about the unprecedented features that the *Compadre*[™] suite offers. No other product line provides real-time translation of text contained in pictures, PowerPoint presentations, Word files, text messages, handwriting and spoken language. At the center of this entire suite is the *Composer* translation engine. *Composer* is a single translation engine that is shared by all of the *Compadre* products. Having this shared translation engine ensures that you have the same reliable performance across all of your *Compadre* modules.

Another key advantage in using *Composer* is that it provides a single location for updating your system's vocabulary. Language is dynamic—in today's world new terms and new meanings are continually being added to each person's vocabulary. *Composer* allows you to keep up with these changes by providing one common tool to update your translation engine as your vocabulary grows. Perhaps you are introducing a new product that your sales force needs to support - or maybe new items to your restaurant menu – or you need to add the name of a new client. With

Composer it's not a problem. Included with the translation engine is the *ComposerEditor* interface. This lets you add new vocabulary, including for example acronyms that are used in your business. Simply type the word or phrase, add the appropriate definitions and translations, and you're done. When you add it to *Composer*, all of your *Compadre* modules are automatically updated.

Sometimes you may want to make the changes directly within your *Compadre* module instead of *Composer*. For example, perhaps you are using *Interact* and realize that you want to add a new term. Again, with *Composer*, this is not a problem. You can import entries that are made directly on any of your *Compadre* modules directly into your *Composer* engine where they then will be shared with all your users.

Composer gives you the flexibility to tailor your translation vocabulary to fit your needs. One location, easy to use, cost efficient, and accurate results, it's all part of SpeechGear's *Compadre* product line.

Start Composing Today

Composer is included with the purchase of any of SpeechGear's PC-based products. For SpeechGear's non-PC products, such as *Interact*, a separate copy of *Composer* can be purchased at minimal cost. To learn more about *Composer* and SpeechGear's entire line of instant translation products, send an email to info@speechgear.com, or give us a call at 888-664-9123 and ask for the Sales Department, or visit our website at www.speechgear.com. We are looking forward to working with you to configure an instant translation system specifically for your needs.

Interact™

Part of SpeechGear's *Compadre™* suite of instant language translation solutions

There are many translation products, but only one that allows you to truly *interact*.

Features:

- Instant bi-directional translation of whatever you say, write or type.
- Automatic generation of transcriptions of your conversations.
- Multiple playback capabilities including male and female voice output.
- Headset compatibility enables hands-free and eyes-free operations.
- Continuous repeat mode for use in crowd control situations.
- Visualize feature allows you to display and notate pictures, forms and videos, further improving your ability to Interact.
- Full-Duplex operations: Interact voices aloud your translation at the same time it's listening to you speak.

System Requirements:

Interact runs on PCs that meet the following minimum standards:

- Microsoft's Windows XP or newer operating system.
- 1 GB or more of RAM (at least 2 GB is preferred)
- 1.8 GHz or faster CPU (an Intel i5 processor is recommended).
- At least 2 GB available disk space.
- An external microphone.

Instant Translation of Conversations

Speak to the system, it repeats what you said in a different language and at the same time generates a complete transcript of the conversation. No human interpreter, no dictionaries, no memorizing of pre-recorded phrases, no constraining your speech to a limited domain; just real-time speech-to-speech translation of conversations.

Say What You Want to Say

With *Compadre:Interact*®, anything you say is instantly translated. Compare this to other voice-based translators where you can only use a fixed set of phrases and words. With Interact there are no boundaries, no constraints, no limited number of phrases. *Interact* comes preloaded with over 900,000 words that can be used in whatever you say, plus you can even easily add your own vocabulary such as acronyms or proper nouns. Instant translation of anything you say, hear, type or write with no limits, that's *Compadre:Interact*.

A Picture is worth a Thousand Words

Often communication is more than simply speaking. Interact includes a *Visualize* feature that allows you to enhance your communications by using images such as maps and calendars; pictures such as people and items of interest; forms for individuals to read or fill out, and/or videos demonstrating a task the individual should perform. Go beyond simply speaking to truly *Interacting*.

Hands-Free and Eyes-Free Interface

Real world situations often mandate the need for maintaining situational awareness and keeping your hands free so you can perform tasks and provide immediate response to changing situations. To support these vital needs, *Interact*, when used with a headset, includes a complete hands-free and eyes-free interface. With this interface, voice-commands and audio cues are used to instantly generate spoken translations. Examples include using voice commands to turn *Interact's* microphone on or off, select the language being used, verify that *Interact* has properly transcribed a spoken sentence, edit the sentence if necessary, generate a translation and have the translation repeated. These are a few of the many features included with *Interact*.

Start Interacting Today

Interact runs on your own PCs, or you can purchase a complete preconfigured system directly from SpeechGear. To learn more about Interact and SpeechGear's entire line of instant translation products as well as our products for the Deaf and Hard-of-Hearing communities, send an email to info@speechgear.com, or give us a call at 888-664-9123 and ask for the Sales Department, or visit our website at www.speechgear.com. We are looking forward to partnering with you to configure an instant translation system specifically for your needs.

Words you say, type or write show up here and are spoken aloud

The translation is spoken aloud plus shown in this window

A transcript of the entire conversation is shown here

Gadget

Part of SpeechGear's *Compadre*® suite of instant language translation solutions

Bi-directional
instant translation
on your desktop

Features:

- Instant bi-directional translation in nearly 200 language pairs.
- Type your phrase, select your language pair, and click translate.
- Cut and paste your translation into other documents.
- Your choice of interfaces, large or small.
- The interface is automatically localized to the language you have set for your computer.

System Requirements:

Compadre:Gadget runs on all PCs that meet the following requirements:

- Running Microsoft's Vista or Windows 7 Operating System software
- And that have access to the internet.

1310 Bollenbacher Drive
Northfield, MN 55057
t: 888-664-9123

info@speechgear.com
www.speechgear.com

Instant Translation of Nearly 200 Language Pairs

Want to translate a phrase, a short sentence, or just see the translation of a word or two? Then *Compadre:Gadget*® is your answer. With Gadget, you can instantly translate phrases to and from 20 different languages, resulting in nearly 200 language pairs. Choose English to Korean; or Thai to Danish; or Swedish to Arabic – they're all part of your Gadget module. Further, *Compadre:Gadget*® is automatically localized to your language – whatever language you have set for your computer is the language that *Compadre:Gadget*® will use for its interface.

Your Choice of Languages

Arabic	Chinese Simplified
Chinese Traditional	Czech
Danish	Dutch
English	French
German	Greek
Hebrew	Italian
Japanese	Korean
Polish	Portuguese
Russian	Spanish
Swedish	Thai

Your Desktop Translator

Compadre:Gadget® resides directly on the desktop of computers that are running Microsoft's Windows Vista or Windows 7 operating system software. When you install the module, it becomes part of your gadget toolbar. Just write or type in your phrase, select the language(s) you want, and click on the translate button - that's all it takes and you'll instantly see your translation.

Your Choice of Display Size

Your module includes two interface options: a small size that leaves your desktop free for other applications; and a larger size that allows you to enter longer sentences and phrases. Take your pick - all it takes is a click to switch between the two sizes.

Cut and Paste

Unlike other PC gadgets, *Compadre:Gadget*® supports cut and paste operations. That way it's easy to enter phrases to be translated, and to use the translations in your other applications such as Microsoft Office.

Get Translating Today

Compadre:Gadget is part of SpeechGear's *Compadre*™ instant translation suite. With *Compadre* your conversations are instantly translated and spoken aloud while you are speaking – no delays or waiting; your documents are translated in seconds with the formatting automatically preserved – no cutting or pasting; your text messages are instantly translated and voiced aloud – you both see and hear the translation. Plus you can easily add your own terms and vocabulary to your translation system. It's all part of the complete *Compadre* suite.

To learn more about the entire *Compadre*™ suite, as well as our line of products for the Deaf and Hard-of-Hearing communities, give us a call at 888-664-9123 and ask or the Sales Department, or send an email to info@speechgear.com, or visit our website at www.speechgear.com. We are looking forward to partnering with you to configure an instant translation system specifically for your needs.

Document[®]

Part of SpeechGear's *Compadre™* suite of instant language translation solutions.

Instantly translate documents while automatically retaining the original formatting

Features:

- Automatically retains the formatting of the original document including picture placement, font types, and layout.
- Automatically scales font sizes so the translated version fits in the same space as the original.
- No need to cut and paste. *Document's* features are directly included in your Microsoft Word[®] and PowerPoint[®] apps.
- Use the included *ComposerEditor* feature to add your own vocabulary to your system.
- Use the included *DocumentViewer* feature to display the original document along with translated versions all on a single projector.
- Plus much more...

System Requirements:

Document runs on PCs that meet the following minimum standards:

- Microsoft's Windows XP or newer operating system.
- 1 GB or more of RAM
- 1.8 GHz or faster CPU (a Dual Core CPU is recommended).
- At least 2 GB available disk space.

1310 Bollenbacher Drive
 Northfield, MN 55057
 t: 888-664-9123
 f: 866-356-6644
info@speechgear.com
www.speechgear.com

Instantly Translate Documents

Simply click a button, and your document is instantly translated and formatted. From creation through presentation, *Compadre:Document* combined with Microsoft Word[®] and PowerPoint[®] is your solution for multilingual documents. It is not an expensive service, but rather an affordable software program that resides on your computer. You own the system, there are no security concerns of having to validate interpreters, or usage concerns where you must connect to a remote server. With *Document* you have standalone system installed on your computer or your network that instantly translates documents anywhere at anytime. From quick notes that you have entered in a Word[®] Document, to fully animated PowerPoint[®] briefing, *Document* is your answer for instant translation.

Affordable, Easy-to-Use, and Accurate

When you purchase *Compadre:Document*[®], the translation features are directly included in your existing Microsoft Office programs.

Unlike other translation programs, with *Document* there's no need to cut and paste text into a separate translation program, then translate the text, and then paste the translation back into the original document. Need to quickly translate an entire presentation or document? Just select the *Translate All* feature. Perhaps you want to perform a more thorough line-by-line review? To do this, simply use *Document's* step-through features.

Add Your Own Vocabulary

With other systems you are locked into the vocabulary that comes with the product. This isn't the case with *Document*. Adding new vocabulary such as military acronyms or names of individuals and locations is as simple as clicking a button. *Document* even provides tools for automatically defining and expanding acronyms that appear within a line of text.

Automatic Formatting

Document automatically retains the formatting of your original document. If there's a picture in the original, it will also be there in the translation. If the original document has **bold** and underlined text written in **red**, the translation will have this same formatting. If the original document is one page long, the translated version will also be one page long. It's all part of *Document's* many patented features.

From Creation through Presentation

Compadre:Document does more than provide quick and accurate translations. This is especially true for PowerPoint presentations. Once you're ready to show your briefing, the included *DocumentViewer* tool allows you to simultaneously display the original file along with your translated versions. With *DocumentViewer* you no longer need multiple LCD projectors or to worry about keeping translated versions synchronized throughout the presentation.

Configure Your System Today

To learn more about *Document* and SpeechGear's entire line of instant translation products, give us a call at 888-664-9123 and ask for the Sales Department, or send an email to info@speechgear.com, or visit our website at www.speechgear.com. We are looking forward to working with you to configure an instant translation system specifically for your needs.

Communicator™

Part of SpeechGear's Compadre™ suite of instant language translation solutions

Instant spoken translation in a pocketable size

Features:

- Complete ready-to-use system that combines SpeechGear's *Interpreter* software with a ruggedized computer and a built-in loud speaker for instant translation, anytime, anywhere.
- Speak, type, write or select a phrase using the touchscreen, and with *Communicator* you will both see and hear the translation spoken in the second language.
- Use *PhraseBuilder™* to say exactly what you want – use it to translate over 100,000 words and phrases.
- Full function Windows Mobile computer supports all your applications including Windows Mobile Office, calendars, calculator, contact manager, media player, games, and internet connectivity.
- Intel PXA processor with Windows Mobile OS and 2 USB ports.
- Wi-Fi and Bluetooth connectivity.
- 4" VGA sunlight readable touchscreen.
- Built-in high quality speaker.
- 11 ounces in weight.
- 5.3" x 3" x 1" in size.

1310 Bollenbacher Drive
 Northfield, MN 55057
 t: 888-664-9123
 f: 866-356-6644
info@speechgear.com
www.speechgear.com

Instant Spoken Translation of Your Phrases

The *Communicator* system combines SpeechGear's *Interpreter* software with a ruggedized computer to provide instant spoken translation in a pocket-size system. Simply speak, type, write or use *Communicator's* touchscreen to select the words or phrases you want to translate. With *Communicator* you both see and hear the translation. It's that simple, instant spoken translation.

Easy to Use

Other systems require you to navigate through multiple menus and scroll through long lists to try to find the phrase you want. *Communicator* makes it easy. *Communicator's* dictionary and phrases are all part of the same interface. Plus, you can easily create your own Favorites Lists for quick recall of phrases that you frequently use. Want more? *Communicator* remembers the most recent 20 phrases that you've translated, allowing easy reuse. Even more? Use the powerful *Find* features to locate phrases that you want to translate. It all adds up to a powerful, flexible, yet easy-to-use pocketable system.

Say What You Want to Say

With *Communicator*, you will no longer be frustrated by being forced to only use a fixed set of phrases that are hard to locate and difficult to remember. Instead, *Communicator's* *PhraseBuilder™* technology lets you say exactly what you want to say. With a single click the phrase, *Are you carrying a _____?* becomes *Are you carrying a gun?* or *Are you carrying a knife?* You can also insert words from *Communicator's* dictionary directly into your phrases. For example, you can enter a word such as *food*, *help* or *supplies* into the phrase, *Do you need any _____*. Further, with *Communicator* you can choose to use audio recorded by a native speaker or have *Communicator* automatically generate the speech. You can even add your own new words, phrases and categories. The flexibility is designed into *Communicator* so it adapts to how you want to communicate, instead of the other way around.

Package Options

Communicator comes standard with words and phrases for general conversation (49 categories). Additional packages, such as emergency medical situations (24 categories) and military specific applications (17 categories) are available. Combine your system with *Composer*, and you can easily create your own words, categories and phrases and share these with other users. The *Communicator* system includes a speaker loud enough to be heard in most settings. For extremely noisy situations, or where crowd control is an issue, SpeechGear offers an optional bull-horn speaker.

Try it today !!!

Communicator is part of SpeechGear's entire suite of instant translation products. To learn more about these products and configure a system for your communication needs, send an email to info@speechgear.com or give us a call at 888-664-9123. We're looking forward to configuring an instant translation system specifically for your needs.

Interact-AS™

Professional and Consumer Editions

Two of Auditory Sciences many products for removing communication barriers.

The only product that allows you to truly Interact

Features:

- Available in both Professional and Consumer Editions.
- Supports written, typed and spoken input.
- Spoken words are instantly transcribed and displayed. Much faster than CART services.
- The transcript includes an optional synchronized audio recording. Individuals can easily find and replay a recording of what was being said when that portion of the transcript was generated.
- Written or typed words are instantly spoken aloud so a non-verbal person can participate in classroom discussions.
- Use the Visualize feature to sketch ideas or make notations on pictures.

System Requirements:

- Purchase a pre-configured system or load Interact-AS onto your own PC that has the following capabilities.
- Microsoft's Windows Vista or newer operating system (Professional Edition also compatible with Windows XP)
 - 1 GB or more of RAM (2 GB is required for Professional Edition)
 - 1.8 GHz or faster CPU (an Intel i5 or faster CPU is recommended).
 - At least 500K available disk space (3 GB for Professional Edition).

At Last, the Wait is Over

In 1883, the editor of the American Annals of the Deaf wrote, "It is not unreasonable to hope that some instrument will yet be contrived that will transcribe ordinary human utterance." After a wait of over a century, what was once a dream is now available product. Individuals with communication disabilities are using *Interact-AS* wherever they go: at work, at parties, in stores, restaurants – direct communication anywhere, anytime with anyone.

Multiple Communication Barriers

One product with many uses:

- Individuals who are **Deaf** are directly communicating with people who do not know sign language, no need for a third-party stranger to listen in on your conversations;
- People that are **Hard-of-Hearing** are using Interact-AS's instant closed-captioned transcript feature (less than a one second delay – much faster than CART systems) to improve their cognition rate of what is being said, be it a conversation, a conference room discussion, a radio broadcast, or a video program;
- People that have **difficulty writing or typing** are using their voice to type memos, answer test questions, or generate text for presentations, documents and emails;
- Individuals that have **difficulty speaking** are using Interact-AS to voice aloud whatever they write or type; and
- People that have **difficulty reading** are using Interact-AS to have text read aloud to them.

Use speech, typing or handwriting

The most recent sentence is displayed here, plus words you type or write are spoken aloud

Speech, typing or handwriting from others is formatted and instantly displayed

A transcript and voice recording of the entire conversation can be saved for future reference

Choose the Professional Edition ...

If you want to use all of Interact-AS's many feature, then choose the Professional Edition. This version includes Auditory Sciences' high quality speech recognition engine for superior transcription accuracy; an unlimited number of user accounts for customizing your system; voice recordings synchronized with your transcripts; favorites lists for commonly used phrases; sociable audio to enhance conversation participation; automated term expansion; PhraseBuilder™ shortcuts for rapidly constructing sentences, customizable voice synthesis engines; plus the ability to add language modules for multi-lingual conversations – now you can communicate with everyone, anywhere, in dozens of languages.

... Or the Consumer Edition

If you are looking for a scaled down version of Interact-AS, then choose the Consumer Edition. This version uses Microsoft's speech recognition and voice synthesis engines. With the Consumer Edition you still have many of the Professional Edition's features including support for speech, typing and handwriting input; instant closed captioning of conversations that can saved for later reference; the complete suite of visualize tools including the built-in sketch pad; and of course Interact-AS's auto translate feature.

Start Interacting Today

Interact-AS is affordable, simple to use, with features to ensure all your communication needs are being met. It is 508 compliant and qualifies for Medicare purchases as a speech generating system. To learn more about *Interact-AS* and government programs to help pay for your purchase, visit www.auditorysciences.com, or send an email to info@auditorysciences.com, or give us a call at 507-645-8924.
