

Compadre®

SpeechGear's Compadre® suite of instant language translation solutions.

Features:

- Bi-directional instant language translation.
- Whatever you say, type or write is instantly translated and spoken in the desired foreign language. This software also generates a complete transcript of each and every conversation that you can save for future reference.
- Microsoft Office documents are translated and formatted with a single click of a button.
- Each individual can add their own vocabulary, such as acronyms or names of individuals, to their systems using *ComposerEditor*.
- SpeechGear also has products enabling individuals who are deaf to communicate with people who do not know sign language.
- Coming soon... Translate text messages by sending a text to SpeechGear's server. The message is instantly translated and voiced out on your cellphone, enabling you to both see and hear the translation.

Languages:

- Arabic
- Spanish
- German
- Italian
- Dutch
- Mandarin Chinese
- French
- and many more...

Remove the Language Barriers in your Community Outreach Programs

It is a straight forward statistic - one out of every five households in America speaks a language other than English within their home. This equates to nearly 50 million people, with 20 million having no knowledge of English at all. In today's communities, multiple languages are required to communicate. Not only is the number of people with limited English skills increasing, but so is the number of languages being spoken. The result is an ever growing need to be able to communicate in multiple languages. Subscribing to translation services or hiring full-time interpreters is expensive and beyond the means of many budgets. To meet this challenge with an affordable and effective solution, SpeechGear has worked in partnership with the U.S. Government to develop a complete suite of instant translation products that are now available for removing the language barriers in your communities.

SpeechGear's Award Winning Instant Translation Software

			
Best New Product for Retailers	Best Use of Speech Technology	Best New Product for Law Enforcement	Tibbets Award for Military Products

Since 2001, SpeechGear has been partnering with the U.S. Navy and Marine Corps to develop systems that remove the language barrier encountered by military personnel who are stationed overseas. These systems are now available to everyone. Simply speak a phrase, and it's translated and voiced out in a second language such as Spanish. The visitor responds in their native language, with the translation being voiced in English. For documents, simply click a button and a formatted translation is instantly generated. SpeechGear also has products that enable individuals who are deaf to communicate with people who do not know sign language. These award winning patented products are affordable, effective, easy-to-use, and immediately available.

Reduce Costs while Improving Communications

SpeechGear's products do not completely replace trained interpreters. With SpeechGear, your interpreters can focus their efforts on situations where they are truly needed, resulting in more effective and efficient use of their valuable time. Instead of using expensive translation services or trying to rely on in-house interpreters for all situations; SpeechGear reduces operational costs by providing you with an affordable instant translation product that you own and can use as the situation dictates. This is not a service or a subscription plan. Use SpeechGear's products as often as needed with no additional usage fees being incurred. Instant translation enables broad communications with anyone, anywhere and anytime.

For Further Information

With SpeechGear, now everyone can communicate in multiple languages. SpeechGear also has a line of products enabling you to communicate with individuals who are Deaf or Hard of Hearing. To configure and order your Compadre system, send an email to info@speechgear.com, or give us a call at 888-664-9123, or visit our website at www.speechgear.com.
