## The Best New Product for Enhancing Customer Experience

"The Innovative Solution Awards provide industry recognition for companies who provide the best of the best in leading edge, creative solutions. After evaluating the hundreds of applications, our committee selected SpeechGear's Compadre product suite for the Customer Touch Points category, which is focused on technology that maximizes the customer experience."

*Joe Finizio, President & CEO, Retail Solutions Providers Association*

## Become the Preferred Pharmacy for Your Customers

One out of every five households in America speaks a language other than English within their home. This equates to nearly 50 million people, with 20 million having no knowledge of English at all. It's simple, people are willing to drive further and even spend more to visit a pharmacy that speaks their language. With SpeechGear's line of instant translation products, you can become that preferred destination. SpeechGear's *Compadre* product suite removes communications barriers by letting employees directly communicate with customers, no matter which language they speak. With SpeechGear, you can instantly translate conversations, product labels, usage directions and purchase receipts.

## Reduce Operational Costs

Instead of using expensive translation services or trying to rely on in-house interpreters for all situations; SpeechGear's products reduce your operational costs by providing you with an affordable instant translation product that you own and can use as the situation dictates. This is not a service or a subscription plan. Use SpeechGear's products as often as needed with no additional usage fees being incurred.

## Three Steps to Removing the Language Barrier

**Conversations:** Use *Interact* to instantly translate conversations. Simply say a phrase and it is translated and spoken in the desired foreign language. You've probably heard the saying, "a picture is worth a thousand words." *Interact's* visualize feature puts this into practice. Augment your communications with pictures, video clips, or websites. Plus, *Interact* automatically keeps a transcript of your conversation that you can save for future reference.

**PhraseBuilding:** For a complete turnkey system, SpeechGear's *Communicator* system instantly translates your phrases. Use *CompadreEditor* to easily add your own terms and vocabulary to your system.

**Documents:** Use *Document* to instantly translate product labels and usage directions, all with a single click of a button.

## Configure Your System Today

SpeechGear's products are affordable, effective, and immediately available. Now all of your employees can communicate in multiple languages, adding that differentiating personal touch to your customer's visit. SpeechGear also has a line of products enabling you to communicate with individuals who are deaf or hard-of-hearing. To configure your system send an email to [info@speechgear.com](mailto:info@speechgear.com), or give us a call at 888-664-9123, or visit our website at [www.speechgear.com](http://www.speechgear.com).
