Increase Your Number of Clients

It's simple, people want to work with a real estate agent that speaks their language. One out of every five households within America does not speak English within their home. This equates to nearly 50 million people, with 20 million having no knowledge of English at all. With SpeechGear's line of instant translation products you can become the preferred agent for these households. From instant translation of speech, to home listings printed in the customer's native language, SpeechGear gives you that extra differentiator to separate you from your competition. SpeechGear's products are affordable, effective, and immediately available.

Reduce Your Operational Costs

SpeechGear's products do not completely replace trained interpreters. With SpeechGear, your interpreters can focus their efforts on situations where they are truly needed, resulting in more effective and efficient use of their valuable time. Instead of using expensive translation services or trying to rely on in-house interpreters for all situations; SpeechGear reduces operational costs by providing you with an affordable instant translation product that you own and can use as the situation dictates. This is not a service or a subscription plan. Use SpeechGear's products as often as needed with no additional usage fees being incurred.

Three Steps to Removing the Language Barrier

- Setting up a First Appointment:** Start by making a great impression. Use *Interact* to greet individuals in their native language and use *Interact-AS* to ensure individuals who are Hard-of-Hearing understand what you are saying. Use these products to set up appointments with your agents. It's simple, just say a phrase and it's instantly transcribed and translated.
- At Showings:** You never know who is going to stop in to view a home. With these products, you're covered. Overcome communications barriers by instantly translating conversations.
- Coordinating and Conducting Closings:** From initial introductions, to completing the purchase, to follow-on referrals, SpeechGear's products provide you with that differentiating edge to increase your number of clients in an affordable and effective manner.
