Become the Preferred Restaurant

It's simple, people are willing to drive further and pay more to dine at a restaurant that speaks their language. With SpeechGear's line of instant translation products, you can become that preferred destination. From instant translation of speech, to receipts printed in the customer's native language, SpeechGear gives you that extra differentiator to separate you from your competition. SpeechGear's products are affordable, effective, easy-to-use, and immediately available.

Reduce Operational Costs

SpeechGear's products do not completely replace trained interpreters. With SpeechGear, your interpreters can focus their efforts on situations where they are truly needed, resulting in more effective and efficient use of their valuable time. Instead of using expensive translation services or trying to rely on multi-lingual employees for all situations; SpeechGear reduces operational costs by providing you with an affordable instant translation product that you own and can use as the situation dictates. This is not a service or a subscription plan. Use SpeechGear's products as often as needed with no additional usage fees being incurred.

Removing the Language Barrier

Use *Interact* to instantly translate conversations. Simply say a phrase, and it is translated and spoken in the desired foreign language. With SpeechGear's products, you are not limited to a fixed set of phrases - any meaningful sentence is instantly translated.

Use *Document* to translate printed items such as your daily menus.
