The Best New Product for Enhancing Customer Experience

"The Innovative Solution Awards provide industry recognition for companies who provide the best of the best in leading edge, creative solutions. After evaluating the hundreds of applications, our committee selected SpeechGear's Compadre product suite for the Customer Touch Points category, which is focused on technology that maximizes the customer experience."

Joe Finizio, President & CEO, Retail Solutions Providers Association

Become the Preferred Destination Overseas Travelers

It's simple, people want to go to a ski area where people can speak their language. With SpeechGear's line of instant translation products, you can become that preferred destination. From instant translation of speech, to receipts printed in the customer's native language, SpeechGear gives you that extra differentiator to separate you from your competition. SpeechGear's products are affordable, effective, easy-to-use, and immediately available.

Reduce Operational Costs

SpeechGear's products do not completely replace trained interpreters. With SpeechGear, your bilingual employees can focus their efforts on situations where they are truly needed, resulting in more effective and efficient use of their valuable time. Instead of using expensive translation services or trying to rely on in-house interpreters for all situations; SpeechGear reduces operational costs by providing you with an affordable instant translation product that you own and can use as the situation dictates. This is not a service or a subscription plan. Use SpeechGear's products as often as needed with no additional usage fees being incurred.

Three Steps to Removing the Language Barrier

- At Customer Reception Desks:** Use *Interact* to instantly translate conversations. Simply say a phrase, and it is translated and spoken in the desired foreign language.
- On the Hill:** Many ski areas have already purchased handheld computers for scanning tickets. SpeechGear's *Interpreter* software runs directly on these computers. No need to purchase any new hardware, just increased functionality from your existing systems.
- In Restaurants, Gift Stops and Hotels:** Instant translation of conversations and transaction receipts. Now your staff can directly communicate with guests in the guest's native language.

Configure Your System Today

With SpeechGear, now all of your employees can communicate in multiple languages, adding that differentiating personal touch to your level of customer service. SpeechGear also has a line of products enabling you to communicate with individuals who are deaf or hard of hearing. To configure and order your *Compadre* system send an email to info@speechgear.com, or give us a call at 888-664-9123 and ask for the Sales Department, or visit our website at www.speechgear.com.
