Document

Part of SpeechGear's Compadre® suite of instant language translation solutions

Instantly translate documents while automatically retaining the original formatting

Features:

- Automatically retains the formatting of the original document including picture placement, font types, and layout.
- Automatically scales font sizes so the translated version fits in the same space as the original.
- No need to cut and paste. *Document's* features are directly included in your Microsoft Word® and PowerPoint® apps.
- Use the included *ComposerEditor* feature to add your own vocabulary to your system.
- Use the included *DocumentViewer* feature to display the original document along with translated versions all on a single projector.
- Plus much more…

System Requirements:

Document runs on PCs that meet the following minimum standards:

- Microsoft's Windows XP or newer operating system.
- 1 GB or more of RAM
- 1.8 GHz or faster CPU (a Dual Core CPU is recommended).
- At least 2 GB available disk space.

Instantly Translate Documents

From creation through distribution and presentation, *Compadre:Document®* combined with Microsoft Office® is your solution for multilingual documents. It is <u>not</u> an expensive service, but rather an affordable software program that resides on your computer. From quick notes that you have entered in a Word® Document, to fully animated PowerPoint® presentations, *Document* is your answer for instant translation.

Affordable, Easy-to-Use, and Accurate

When you purchase *Compadre:Document®,* the translation features are <u>directly included in your existing Microsoft Office programs</u>. Unlike other translation programs, with *Document* there's no need to cut and paste text into a separate translation program, then translate the text, and then paste the translation back into the original document. Need to quickly translate an entire presentation or document? Just select the *Translate All* feature. Perhaps you want to perform a more thorough line-by-line review and at the same time add your own vocabulary and translations to the *Composer* engine? With *Document,* you can easily step through the file by selecting your own pagination preferences, and adding terms is as simple as clicking a button. Further, as one of SpeechGear's many patents, <u>*Document* automatically retains the formatting of your original document</u>. If there's a picture in the original, it will also be there in the translation. If the original document has **bold** and <u>underlined</u> text written in **red**, the translation will have this same formatting. *Document* even provides tools for automatically defining and expanding acronyms that appear within a line of text, and scaling fonts so that a one-page document remains a one-page document when it is translated.

From Creation through Presentation

Compadre:Document does more than just provide you with quick and accurate translations. This is especially true for PowerPoint presentations. Once you're ready to show your presentation, <u>the included *DocumentViewer* tool allows you to simultaneously display the original file along with your translated versions</u>. With *DocumentViewer* you no longer need multiple LCD projectors or to worry about keeping translated versions synchronized throughout the presentation.

Configure Your System Today

To learn more about *Document,* give us a call at 888-664-9123 and ask for the Sales Department, or send an email to info@speechgear.com, or visit our website at www.speechgear.com. We are looking forward to working with you to configure an instant translation system specifically for your needs.
