

Document™

Part of SpeechGear's *Compadre™* suite of instant language translation solutions found at www.speechgear.com/store.

Instantly translate documents while automatically retaining the original formatting.

Features:

- Instant translation of your documents.
- Automatically retains formatting such as picture placement, font types, and layout of the original document.
- Automatically scales font sizes so the translated version fits in the same space as the original.
- No need to cut and paste. *Document's* features are directly included in your Microsoft Office programs such as Word® and PowerPoint®.
- Use the included *ComposerEditor* feature to add your own vocabulary to your system.
- Use the included *DocumentViewer* feature to display the original document along with translated versions all on a single LCD projector.
- Plus much more...

Instantly Translate Documents

From creation through distribution and presentation, *Document* combined with Microsoft Office® is your solution for multilingual documents. It is not an expensive service, but rather an affordable software program that resides on your computer. From quick notes that you have entered in a Word® Document, to fully animated PowerPoint® presentations, *Document* is your answer for instant translation.

Affordable, Easy-to-Use, and Accurate

When you purchase *Compadre:Document®*, the translation features are directly included in your existing Microsoft Office programs. Unlike other translation programs, with *Document* there's no need to cut and paste text into a separate translation program, then translate the text, and then paste the translation back into the original document. Need to quickly translate an entire presentation or document? Just select the *Translate All* feature. Perhaps you want to perform a more thorough line-by-line review and at the same time add your own vocabulary and translations to the *Composer* engine? With *Document*, you can easily step through the file by selecting your own pagination preferences, and adding terms is as simple as clicking a button. Further, *Document* automatically retains the formatting of your original document. If there's a picture in the original, it will also be there in the translation. If the original document has bold and underlined text written in red, the translation will have this same formatting. *Document* even provides tools for automatically defining and expanding acronyms that appear within a line of text, and scaling fonts so that a one-page document remains a one-page document when it is translated.

From Creation Through Presentation

Compadre:Document does more than just provide you with quick and accurate translations. This is especially true for PowerPoint presentations. Once you're ready to show your presentation, the included *DocumentViewer* tool allows you to simultaneously display the original file along with your translated versions. With *DocumentViewer* you no longer need multiple LCD projectors or to worry about keeping translated versions synchronized throughout the presentation.

Configure Your System Today

To learn more about *Document*, give us a call at 888-664-9123 and ask for the Sales Department, or send an email to info@speechgear.com, or visit our website at www.speechgear.com. We are looking forward to working with you to configure an instant translation system specifically for your needs.
