## Your Desktop Translator

*Compadre:Gadget*® resides directly on the desktop of computers that are running Microsoft's Windows Vista or Windows 7 operating system software. When you install the module, it becomes part of your gadget toolbar. Just write or type in your phrase, select the language(s) you want, and click on the translate button - that's all it takes and you'll instantly see your translation.

## Your Choice of Display Size

Your module includes two interface options: a small size that leaves your desktop free for other applications; and a larger size that allows you to enter longer sentences and phrases. Take your pick - all it takes is a click to switch between the two sizes.

## Cut and Paste

Unlike other PC gadgets, *Compadre:Gadget*® supports cut and paste operations. That way it's easy to enter phrases to be translated, and to use the translations in your other applications such as Microsoft Office.
